## K-9 TRACKING PROGRAM

### History of Police K-9

#### Historical Overview

- Canines have been utilized as working dogs since ancient times.
- Used in times of war before Christ .
- Trained to attack enemy soldiers and protect their masters.
- Used by Ancient Greeks to disclose where enemy was by sending dog in and drawing fire to them.
- Romans utilized dogs during battle and cut loose on enemy during hand to hand combat.

### SOFTWARE DEVELOPED FOR YOUR K-9 PROGRAM

#### 2001

- "Law Enforcement Canines", designed to accompany the Model Policy on Law Enforcement Canines established by the IACP National Law Enforcement Policy Center.

Today, civilian law enforcement agencies and military units throughout the world use police K-9 in widely ranging detection and apprehension functions. The demand for dogs is high, and the volume of case law affecting their deployment has grown to maintain the highest possible level of professionalism is clear, trained law enforcement K-9.

### AUTOMATED K-9 SOFTWARE PROGRAM

Many law enforcement experts agree that this program is cost effective and provides critical protection with liability issues. The automated records database within this program contains the essential tools provided to accomplish this task. All in a matter of minutes! This program provides many of the most beneficial advancements in the entire profession.

### THIS K-9 SOFTWARE PROGRAM IS USER FRIENDLY.

This program was designed by an officer with 26yrs of service. Knowing the demands facing our law enforcement K-9 units everyday, this program was specifically designed for ease of use without complicated tasks compared to other programs, With the click of a mouse button, you can easily navigate to all parts of the program with ease. One of the many features included with this program provides an internal mapping diagram page. Like no other program of it's kind, all address locations related to specific incident reports are auto saved on a live diagram page, featuring satellite, map & terrain information, available to print with your report. This feature is available on PC's with internet access.

All records are auto saved and readily available for summary evaluation. It can shorten the time to complete professional looking reports associated with your K-9 program. This software program can be installed on any number of laptop computers in the field, including your office or mainframe computers, All records can easily be exported & imported into your mainframe computer system. Updated records can also be transferred utilizing the internet via e-mail attachments.

The K-9 Officer simply types the information in the field while it is auto saved for future reference.
